

Rostering and Integrations Solutions Seamless. Smart. Easy.

Wayside's rostering and integration solutions help you focus on students, not systems.

Why Choose Wayside's Integration Solutions?

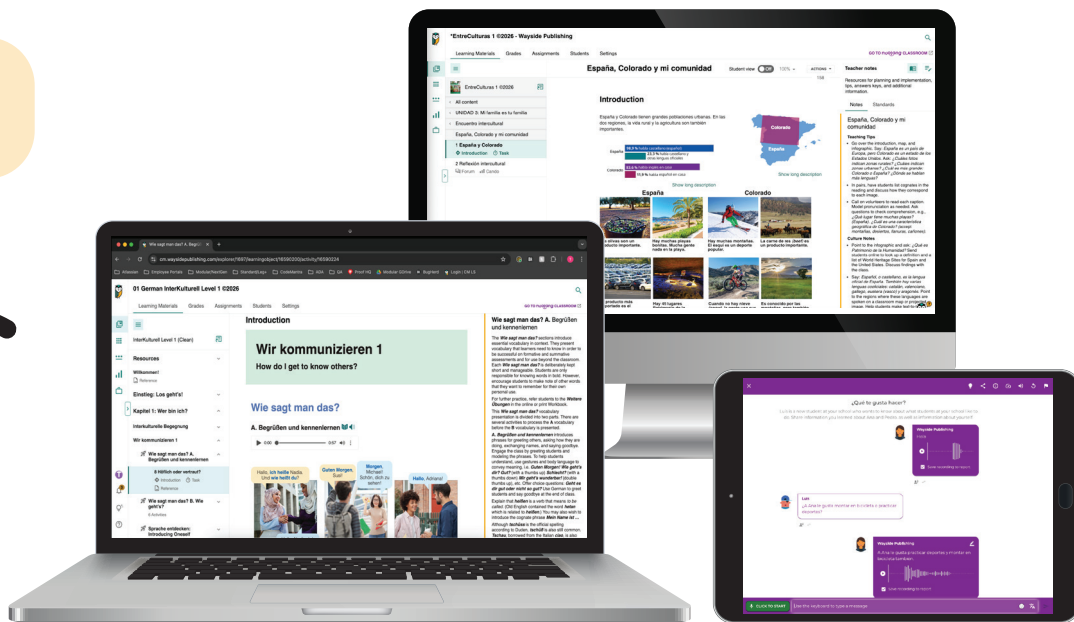

- **For District Administrators:** Complete, standards-based solutions reduce administrative time and effort while ensuring the privacy and security standards you need.
- **For Teachers:** Streamlined rostering, gradebook, and lesson plan setup ensure a smooth start from day one, giving you more time to focus on your students.

Unlock Powerful, Result-Driven Tools

- **Effortless Account Creation, Course Setup, and Rostering:** Eliminate manual work to set up, roster, and use Learning Site® courses directly with your school's systems.
- **Automated Grade Synchronization with Your LMS Gradebook:** Through our integrations, Learning Site® scores can automatically be passed back to your gradebook, eliminating the need for manual entry.
- **Seamless Single Sign-On (SSO):** Log in with the same school account you already use—no extra passwords needed.
- **Build, Share, and Assign Learning Content:** Easily integrate your Learning Site learning activities and resources into lesson plans and LMS course assignments.

Integrations made simple!

Complete, Standards-Based, Partner-Supported Solutions

- We support the education technology industry standards and work directly with your district's preferred systems to make setup effortless. Our integrations streamline course creation, account setup, rostering, grade exchange, and lesson planning so you can focus on teaching, not technology.
- **Integration Standards:**
 - Full 1EdTech certified standards support, including OneRoster CSV v1.1 and OneRoster API v1.1, LTI v1.1 and v1.3, Thin Common Cartridge (TCC) v1.3, and QTI v2.1.
 - Single Sign-On (SSO) support for SAML (Google SSO, ADFS, etc.), ClassLink SSO, Clever SSO, LTI v1.1, and LTI v1.3.
- **Security Standards and Partners:**
 - SOC 2 Type II Certified (annual), 1EdTech TrustED Apps Data Privacy, EDSAFE AI Partner.
 - Amazon Web Services (AWS), Rapid7, Drata, Prescient Security.
- **Learning Management Systems (LMS) Support:**
 - Interoperability with all major LMSs, including Canvas, Schoology, Google Classroom, D2L/Brightspace, Blackbaud, and Moodle.
- **Student Information Systems (SIS) Support:**
 - Data sync support for all of the following major SISs: Powerschool, Aeries, Aspen, Blackbaud, Skyward SMS, Skyward Qmlativ, Veracross, Infinite Campus, Synergy, Renweb FACTS, Bromcom, and more that support the OneRoster API standard.
- **Integration Service Provider Support:**
 - Integration partner support for all major providers, including Clever, ClassLink, Edlink, and Safari Montage.

Expert Partnership and Service

Not sure how everything works? No worries—our dedicated integration specialists **provide everything your school needs** for a seamless rostering and integration setup. With **experience helping over 600 school districts annually**—from implementation through ongoing support, our team knows exactly what you need. We tailor to your needs, **implement what works** in your environment, and **provide direct support** for your administrators to handle the technical details.

This saves you time to do what you do best—teach.
