Chiarissimo is available in digital-only format or as a digital-print bundle. The Learning Site, consisting of FlexText® and Explorer, can be accessed on any device.

Chiarissimo Uno & Due

Italian 1, 2 Language and Culture Program

Use the up-to-date resources, engaging exercises, and thought-provoking imagery in this series to inspire your students.

► Achieve Learning Objectives

Sitos begin with discussion topics that guide critical thinking, as well as clearly articulated, task-based proficiency objectives for students to meet.

► Strengthen Vocabulary & Grammar

Not only will students learn relevant vocabulary and grammar, but they will also learn idiomatic and cultural expressions that further their proficiency and confidence in the Interpersonal, Interpretive, and Presentational modes of communication. Continuously recycling vocabulary and grammar concepts through authentic student-centered exercises in each *sito* will increase students' communicative competence.

► Connect and Compare Cultures

Each *sito* kicks off with an Italian proverb recognized throughout Italian culture, with a rich meaning that will stimulate conversations and connections throughout the unit. Every unit exposes learners to a different Italian region with cultural aspects integrated throughout communicative tasks. By the time learners arrive at a unit's summative assessment, they will have engaged with resources connected to history, geography, art, famous people, music, literature, and cuisine.

► Prepare for Assessments

Chiarissimo prepares students to compete nationally on the Level II, AATI National Italian Contest Examination. It continues to strengthen their foundation in all aspects of the Italian language, and it prepares them for the AP® course/exam.

Too many books
in your bag?

Teach Italian in class or on the
go—with the Learning Site

The Learning Site is your home for two seamlessly integrated online learning tools! For extra mobility, download the Learning Site iOS App!

FlexText® is a digital textbook that page by page reflects the *Chiarissimo* content. Highlight and take notes on pages that adjust to any screen, and that always remember where you left off the next time you log in.

Explorer® hosts all of the links and assignments that engage *Chiarissimo* learners, as well as an online forum for class discussion, audio and video exchanges, and more. Educators love their version of Explorer®, with customizable gradebook and assignment settings, proficiency-driven instruction strategies, and more.

The Learning Site can be integrated with most learning management systems, including Clever, Google Classroom, and Canvas!
