

Learning Site®, Wayside Publishing®'s digital platform, is designed to support proficiency-driven, performance-based, and standards-aligned teaching practices.

Highlights

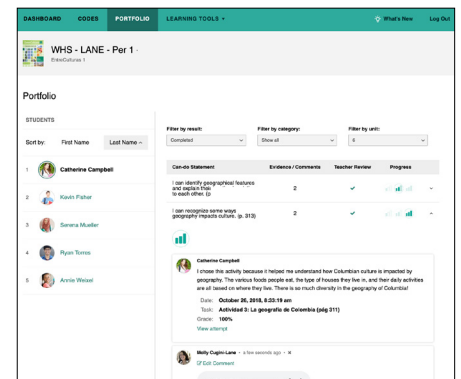

- Audio and video recording within Learning Site®
- Quick access to a wide variety of digital resources
- Integrated student portfolios linked to communicative and intercultural Can-Do statements
- Forums for interpersonal communication, community building, and incorporating additional material
- Instructional Strategies Toolkit for teachers
- Personalized training and support for all users
- **Integrations** with numerous Learning Management Systems
- Simplified account management and **rostering** options

Enhance and expand your classroom community with engaging activities during (and beyond) the school day.

Personalize learning for each student by providing audio, video and written feedback, which aids in their growing proficiency.

Empower each student to self-assess and reflect on their progress by uploading evidence to their portfolio through Can-Do statements.

See what **Explorer®** and **FlexText®** features educators love in the **Key Features** section.

Key Features

Learning Site® lends itself to flexible learning through its digital resources, dynamic tools, built-in features, and accessibility across devices.

Explorer® Content

- Preview content, assign resources and activities, adjust task settings, and review submissions with one click
- Access to digital resources, including audio/video scripts, flashcards, rubrics, graphic organizers, and more
- Browse and search materials using filters for activity types, units, or keywords
- Download audio and video resources
- Fillable PDFs for simplified digital completion

Learning Tools

- Searchable Instructional Strategies Toolkit offering a variety of instructional approaches
- Filter by mode, skill, proficiency level, learning style and more

FlexText®

- Scrollable page for enhanced viewing
- Built-in highlight tool to annotate text and create notes
- Keyword search in target language or English
- Embedded links to content, allowing audios and videos to be played without leaving the page
- Preview content, assign resources and activities, adjust task settings, and review submissions with one click

Portfolio

- Provides a convenient location for students to document their learning and reflect on their progress
- Students can easily upload evidence (including activities from their Explorer® class) and edit submissions as they progress
- Built-in written, audio and video feedback tools
- Students never lose access to their portfolio

Grades

- Audio, video, or written feedback options
- Adjust overall or per question scores
- Time-stamped comments on audio and video submissions
- View submission details such as time, date, and duration

Assignments

- Helpful notifications for both students and teachers
- Assigning options: with or without a due date, now or later, and selected students or classes
- Assign multiple activities or resources at one time

Settings

- Show/Hide content
- Adjust overall or individual task attempts
- Adjust overall or individual task grading criteria

What's New

- Read about new features and enhancements
